

# UPDATE - Growblox Sciences, Inc. (OTCQB: GBLX) Featured in Huffington Post Article

"Biotechnology's Response to the Burgeoning Medical-Marijuana Industry"

September 11, 2014 09:21 ET | Source: [GrowBLOX Sciences, Inc.](#)

LAS VEGAS, NV--(Marketwired - Sep 11, 2014) - Growblox Sciences, Inc. (OTCQB: GBLX) a leader in natural, and medicinal-grade cannabis and cannabis concentrates announced today that the company was featured on Huffington Post Article. The piece focuses on Dr. Small-Howard whom is helping commercialize and productize medical marijuana using a proprietary methodology that uses genetic cultures to produce a scientifically consistent result. GB Sciences has several trademarked GrowBLOX™ technologies, including the InCUBEator Cannabis Propagation Chamber, GrowBLOX™ Cannabis Grow Chambers, CureBLOX Cannabis Drying System, and ConversionLAB Cannabis Extraction Solutions.

The company's feature in the Huffington Post reviews the following:

- Marijuana can be grown legally in 23 states and the District of Columbia; and another 11 states have limited legal access, often for research purposes, [according to the National Conference of State Legislatures](#).
- GB Sciences has several trademarked GrowBLOX™ technologies, including the InCUBEator Cannabis Propagation Chamber, GrowBLOX™ Cannabis Grow Chambers, CureBLOX Cannabis Drying System, and ConversionLAB Cannabis Extraction Solutions.
- GB Sciences, Inc.'s proprietary methods can yield up to five harvests a year, outpacing industry competition, according to the firm.
- GB Sciences is currently working to further their research in various therapy areas and is equally excited to explore the possibility of using other molecules from plant extracts to further enhance the medical properties of cannabinoids.
